

Denaturing kits

For the safe disposal of old medicines, including controlled drugs: tablets (crushed), powders, liquids, ampoules (break open or crushed).

Sizes available
500 ml and 1 litre

NEVER use denaturing kits more than once!

How to use

1. Shake to loosen contents
2. Fill to the green arrow with medication
3. Fill to the blue arrow with water
4. Replace lid securely
5. Shake for 30 seconds
6. Leave for 10 minutes
7. Place carefully in the appropriate pharmaceutical sealed unit:

Blue-lidded:
for denatured
non-hazardous medicines

Purple-lidded:
for denatured
hazardous medicines
