

Bio Systems Container Guide

Single-use Metal Instrument Recycling

For the disposal of single-use metal instruments e.g. scissors, forceps, nail clippers, black files and burs, towel clips, needle holders, coil removers.

Not for the disposal of instruments with plastic bodies or handles

By segregating out **your** metals within this type of container, we can assist **you** with **your** sustainability goals.

Metal instruments can be autoclaved and recycled from this container instead of incinerated or sent to landfill.
